TAWHID HOSSAIN

Full Stack Developer

Dhaka, Bangladesh | [+880 1533399878] | Tawhidh2014@gmail.com
GitHub: github.com/Tawhidh05 | LinkedIn: linkedin.com/in/tawhidh05 | Portfolio: https://taj-porfoli0.vercel.app/

CAREER OBJECTIVE

Full Stack Developer with hands-on experience building responsive, data-driven web applications using React, Next.js, Node.js, Express.js, MongoDB, and Firebase. Seeking an entry-level full stack role where I can ship production features, write clean and maintainable code, and grow toward a mid-level engineering position. Brings strong communication and teamwork skills, with a continuous learning mindset that includes exploring ML/AI.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React, Next.js, React Router, Tailwind CSS, TanStack Query, Axios, Recharts, Vite

Backend & Database: Node.js, Express.js, MongoDB (Atlas), JWT, bcrypt, Firebase (Authentication, Admin SDK)

Tools: Git, GitHub, Vercel, Render, Cursor AI (AI-assisted development)

Interpersonal: Communication, Teamwork

PROJECTS

DevGear: E-commerce Website GitHub: github.com/Tawhidh05/Devgear

Overview: An e-commerce web application built with Next.js (App Router), with public storefront pages and protected pages for signed-in users.

- Secure user registration and login with Firebase Authentication.
- Public and protected routes, restricting account-only pages to authenticated users.

Yusafir: Travel Booking Platform GitHub: github.com/Tawhidh05/yusafir

Overview: A travel booking platform for Bangladesh where visitors browse destinations and stays, create an account, and book; admins manage content and bookings from a role-based dashboard.

- Built destination and stay browsing with search, filters, sorting, and pagination, plus detail pages with a photo gallery, specifications, reviews, and booking.
- Implemented JWT authentication with bcrypt password hashing, remember me, protected routes, and role-based access for users and admins.
- Created a user dashboard (bookings, profile, settings) and an admin dashboard for managing users, destinations, stays, bookings, and messages, with Recharts analytics.
- Developed a Node.js and Express REST API backed by MongoDB Atlas; deployed the client on Vercel and the server on Render; responsive layout with light and dark mode.

EDUCATION

Sonargaon University 2026 – Present

Bachelor of Business Administration (B.B.A)

TRAINING

Complete Web Development Course | Programming Hero [2025]

- Built full-stack assignments using HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, and Firebase.
